* The mean population for the year is obtained as follows :—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1929.

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import Items into Classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1929.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Export Items into classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, the following resumé of the classes, together with a slightly condensed Index of the items in alphabetical order is inserted for the convenience of the public,

No. 34.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board, and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

NOTE.—In addition to the above figures the following particulars were also obtained:—Acreage of Planted Forest Trees, 3,729 acres; Lands farmed on the "Share System": For Cultivation, 95,493 acres, and Dairying, 1,955 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 14.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 28th February, 1929.

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

PART VI.—INDUSTRIAL ESTABLISHMENTS (Exclusive of Mines).

NOTES.—The Industrial Establishments here dealt with are those which, excluding Mines, come under the definition, adopted for statistical purposes, of Industrial Establishments, each being a "factory, workshop, or mill, where either four persons or more have been employed at any one time during the year, or where an engine driven by steam, gas, oil, or electricity has been used, whatever be the number of persons employed."

Establishments included in Class XX. prior to 1925–26 have since that date been excluded in order to bring the classification of industries into line with other States of the Commonwealth.

In 1928 at the Conference of Statisticians, bakeries were added to the list of industrial establishments, and particulars regarding them have been, in Class VI., included in the figures for 1927–28 and 1928–29.

No. 1.—Classified numbers of Industrial Establishments (exclusive of Mines) from which Returns were received under the provisions of "The Statistics Act, 1907," and numbers of Males and Females employed, for each of the years 1923, 1927–28, and 1928–29.
